

LEARN AND ENGAGE

ONLINE LEARNING FOR ALL YOUR TEAM

1

DEVELOP & RETAIN YOUR PEOPLE

Whether it's customer service, Excel or cultural competence that your team needs to upgrade; you'd love to support them to develop their skills and knowledge - keeping them in your business & engaged.

2

COMPLIANCE

How frustrating is it when an employee is not performing and they claim the reason they didn't perform is because you didn't train them! What if you could show you did?

3

WHY YOU DON'T HAVE ONLINE LEARNING

Generally online learning providers have minimum numbers of employees, or minimum spends in the thousands... or charge \$50+ per course. For a small business this just isn't viable.

4

PEOPLE INNOVATION PORTAL

This online learning portal has been set up especially for small businesses with 1 to 50 employees who want a level of control over their employees' learning without the burden and cost of self-hosting.

5

COST

You want to offer your team access to online learning, but cost has been a prohibitor. Now you can be an employer of choice for a low cost; with no minimum employee numbers.
